

Keep It Simple

Are you tired of your existing website? Are you tired of waiting for your web designer to make the changes you asked for weeks ago?

It's not as hard as you think to move your older style website over to dynamic software like WordPress. It enables a fresh look & has built-in search engine friendly features. Best of all - if you want...you can make text changes yourself, it's that easy.

Keep It Simple Web Design can take your existing website and "wake it up," give it a fresh look, AND make it easy for you to make your own changes. We can also create a dynamic new site for a new biz.

Does Your Website
Need a LIFT?

Testimonials

"...My previous webmaster had made a mess of my website, Cathy stepped in and saved the day! She worked together with me to create the new site. Now I have a website that I love and is just what I envisioned." Robin Sierra, Artist & Grief Counselor. greenmountainarts.com"

"...Bottom line was that she was knowledgeable (knew everything from site optimization to layout), thorough (patiently put up with all the changes that I requested) and prompt (Site was up in a little under 10 days). She did a great job and I invite you to take a look at it, delvalturf.com. Since we updated it our online referrals have increased 1200%." Matt McGuire, Owner, Delaware Valley Turf Supply & Service, Inc.

Why Keep It Simple Web Design?

In addition to a simple, yet dynamic new website that attracts your customers, we also train you to keep up the site yourself. We CAN do it for you, but most customers enjoy how easy it is to make changes. You also receive:

- A simple, straightforward, professional web design.
- Complete control over your site & domain name. Not all web designers protect your interests.
- An affordable site: New sites are \$500-\$1500. Some sites with specific needs cost more, all discussed before the start of the project.
- Customer-centered design: We keep your customers in mind during the process.
- 20 plus years of marketing & PR experience that we bring to the table...not just our design skills.
